Projects

Clone of Fiverr website 🔗
05/2024 – 06/2024
The Fiverr Clone project is a dynamic and responsive platform designed to connect freelancers with clients for various services. It features an intuitive interface with advanced search functionality, secure payment gateways, and robust user account management for tracking orders and managing gigs. The platform employs responsive design for seamless browsing across devices and showcases services with detailed descriptions and user reviews to enhance the hiring experience.

Clone of Pharmeasy Website 🔗
12/2023 – 01/2024
The PharmEasy Clone project is a dynamic and responsive e-commerce platform offering a wide range of pharmaceutical products and healthcare services. It features an intuitive interface with advanced search functionality, secure payment gateways, and robust user account management for order tracking and personalized recommendations. The platform employs responsive design for seamless browsing across devices and presents products with high-resolution images and special offers to enhance the shopping experience.
